DEPARTMENT OVERVIEW

VISION STATEMENT

The vision of the department is to make possible for our students to have a deep and analytical understanding of the field and to enable them to use their immense potential to enhance the quality of human life.

MISSION STATEMENT

The mission of the department is to offer a high-quality science education in the science of computing, as well as to prepare students for career opportunities in this area requiring a high level of technical knowledge and skill. The department will continue to develop and administer programs which serve the needs of industrial computer scientists, researchers, and computer application specialists for whom the discipline of computing sciences provides indispensable tools.

INTRODUCTION TO PROGRAM

Master of Science in Computer Science is a two year four semester course. The course includes important areas of Computer Science designed to improve the skills of the student in analytical, problem solving and research areas. The curriculum includes the latest technologies to prepare the student for the future. The infrastructure provides an excellent environment for the student to contribute effectively in the field.

PROGRAM OBJECTIVE

Provide a strong base in the field of computers. Prepare the students with exceptional skills of problem solving, communication and leadership skills. To create leaders who can help software professionals in their domains. Facilitate the culture of research in the field if information technology. Prepare the students to provide professional solutions to real time problems.
